

## Client

Private Residence.  
Auckland North Shore.

## Project requirements

Provide security, privacy; reduce traffic noise and pollution for architecturally designed property.  
High vehicle and foot traffic area.  
Limited driveway space.  
To be installed ready for first open home.

## Warner recommendation

Louvre automated sliding gate able to be placed within space constraints.  
Double pedestrian gate system to allow full width use if required with communication to house.

## Installation

Co-ordinating with other site contractors to ensure completion within time frame.  
Sliding gate automation by Warner Automation Auckland North.

## Outcome

Stylish solution easily accommodated within available space.  
Delivered on time.
