## Driveway Gates

*Gates have ornamental value in addition to functional value and are one of the first impressions visitors perceive of your property.*

---

Warner Driveway Gates have been designed to specifically meet your requirements to add value, appeal and security to your property. Privacy can be achieved with the various types of cladding that can be inserted into the metal gate frame.

A gate can fill several functions at once: it can be both elegant and stylish and at the same time prevent unwanted visitors from entering your property; it can hide your home and protect your privacy and at the same time be functional and un-intimidating. By selecting the most appropriate design/style of fence and gate this will enhance the value of your property, thereby reducing the significance of the initial cost.

Being New Zealand made using New Zealand materials we can make the gate specifically for your property - be it style, size, or colour. We will design in with you - and make it for you.

*Entry Gates provide some of the best security and peace of mind 24 hours a day, 365 days a year.*

---

Gates can do one of two things: they can greatly lengthen the time needed for a burglar to reach the house, or they can deter the burglar from trying to break into the premises in the first place.

They can also keep in, the children or the dog, and protect them from going on to the road.

Warner Gates are fully welded and are available in Steel or Aluminium. Various properties have space limitations but Warner Gates are able to be designed to cater for all situations from – double swing, single swing, or sliding.

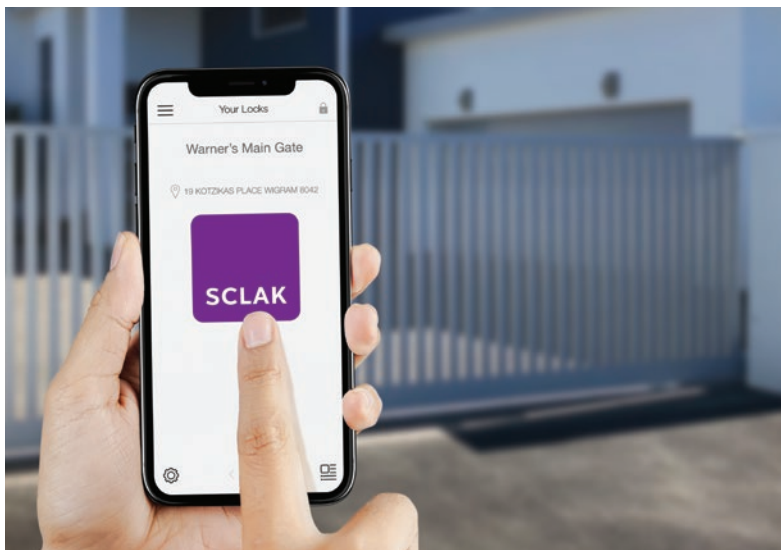

The choices of gates is vast with Warner. Being NZ made we will make a gate for you specifically for your driveway. Design options include tubular (secure and able to be seen through) or the architectural louvre, tongue and groove, slat or weather board looks. Or what about a one off design using our new laser technology that enables shapes to be cut out.

For ease of entry into your property Warner Gates can supply DEA Automatic Access opening equipment, including Swing, Linear, Underground.

## Gate Automation

*Whatever your gate automation needs, Warner Gates have a solution. Once you have enjoyed the convenience of an automatic gate you won't want to go back.*

The 2 key elements in automating a gate are reliability and control. We use Italian DEA motors which have a reputation for durability and performance with metal gear boxes and advanced digital controllers.

Operating your gate is easy and, along with the option of remote controls and keypad access, we offer a range of specialised control accessories. Our Sclak phone app gives you the power to control your gate from your phone with Bluetooth and invite or restrict users as you desire.

Our range of video intercom systems give you the ability to view and talk to visitors from a monitor in your house or remotely from your mobile phone.

## Pathway Gates

*Warner Pathway Gates are available to match the complete range of Warner designs.*

---

Pathway Gates range from the simple classic to the more elaborate option. For improved security and convenience Warner Pathway Gates can be fitted with modern locks and hinges and can incorporate electronic opening by keypad or intercom. Being made in NZ means we can make your gate to suit your pathway and we can powdercoat in a range of colours to match your house, roof or windows.

No property is complete without one of Warner Pathway Gates. Whatever the situation, the Warner Pathway Gate range is able to complement every property. Warner Pathway Gates can include various infill panels to provide a more secluded area.

## Laser Cut Architectural Gates

*Want to be different from your neighbourhood.  
Let us design a gate with you to achieve just that.*

---

Warner not only has their own inhouse welding and powdercoating. We also have inhouse design and plasma laser cutting. This means we can custom make a gate with your street address, or farm name, or cut out shapes to achieve what you want. Made from Aluminium these gates will be strong and unique to your property.

These images are an example of the capabilities we have at Warner. We can incorporate numbers or patterns and we will work with you to achieve the look you are after.

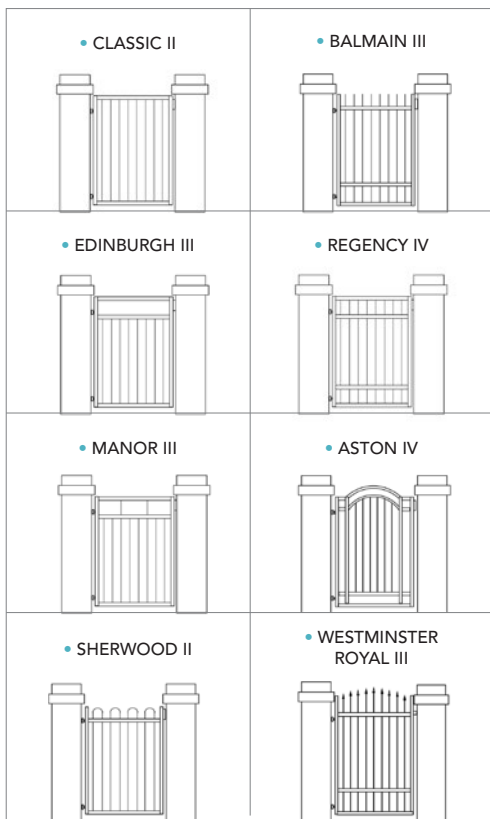

Please consult your local Warner franchisee if you'd like to find out more.

## Warner App

The innovative Warner app allows you to visualise what your gate will look like and help you in your selection process.

Your local Warner franchisee will visit you at your home and use the app to give you a photographic representation of your gate in the style and colour of your choice from our extensive range. The Warner app gives you peace of mind knowing you've chosen the right gate for your unique entrance or pathway.
