## POOL FENCING RANGE

## POOL FENCING RANGE

*Pool fencing will enhance and add value to your pool and property for years to come. Glass pool fencing provides unobstructed views and wind protection while creating a sense of space and openness. Tubular pool fencing is a practical and cost effective alternative to glass that offers both style and strength. Combining both glass and tubular gives you the best of both worlds and is a popular choice. For complete privacy and security, choose solid panel pool fencing, a stylish and practical option that gives your pool a unique point of difference.*

## Glass Pool Fencing

The Warner range of glass pool fencing allows you to make a stunning design statement while providing quality and safety. Our glass pool fencing is practical, providing safety and shelter from the wind, while maximising your view and creating a sense of space. Glass is contemporary yet timeless, enhancing any space for many years to come.

The glass used for our pool fencing is of the highest quality, meeting NZ Standard 2208:1996 for Safety Glazing Materials in Buildings. The glass is toughened and is 12mm thick and all of its edges are polished, providing a smooth finish all round.

Our glass pool fencing uses a stainless-steel spigot system to fix the glass in place, this allows minimum use of posts and rails, providing uninterrupted views.

This system complies with New Zealand's legal standards within the Swimming Pools Act 1987 and NZ Standard 8500 so quality and safety are guaranteed. The Polaris gate system that works with Warner's spigot system is the best in the world, a soft close gate that is reliable and put through 10,000 cycles of quality testing. Warner installers are expertly trained to install your glass pool fencing to the highest standard and they pride themselves on quality and excellent service.

*"We appreciate the wonderful job that you did. Everything looks great. Thanks so much again for the wonderful service." – Nick & Marcia Foster*

## Glass & Tubular

Combine the best of both worlds by using glass and tubular fencing around your pool. Both are practical and stylish and complement each other well. Glass and tubular pool fencing are often used together when, in a certain area around the pool, glass is not practical or there is no view, so glass is not required. Using both styles allows you to have great views where you want them and practicality where you need it.

*"Thanks for an amazing Pool Fence – what an improvement!" – Jill & Harry*

*"I also wanted to say thank you so much for your exceptional service. You are a wonderful company to deal with."  
– Lynette Journee*

## Tubular Pool Fencing

Warner has a range of quality and stylish pool fencing making us the ideal choice to enhance your swimming or spa pool. From classic to contemporary styles, we have a fencing solution to suit your unique space. Our wide range of colours means you can make your pool fencing complement or contrast your home and surroundings.

We also offer design flexibility, our fencing is custom made so can fit your unique space, whether it be curves, contours, slopes or changes in level. Posts can be concreted into the ground or fixed to existing concrete or timber decks.

Warner pool fencing is made from quality aluminium offering strength, durability and clean simple lines. All of our pool fencing is engineered and designed to meet various council's requirements so you can have peace of mind that your pool will be safe and up to standard. Warner installers are expertly trained to install your pool fencing to the highest standard, and they pride themselves on quality and excellent service.

## Solid Wall Pool Fencing

Warner's range of solid wall fencing provides stylish safety and security for your pool. An innovative product, Warner Solid Wall Fencing is strong and durable but still provides a beautiful finish that complements any space. The panels are made from composite honeycomb aluminium which offers the perfect strength to weight ratio, far superior to traditional polystyrene, brick or block walls. Our solid wall pool fencing is ideal for blocking wind and reducing noise while securing your pool. The choice is yours with the option of full solid wall panels or a combination of solid panels at the bottom with architectural louvres, slats, weatherboard, tongue and groove panelling or tubular fencing on the top. This allows you to mix and match to find what best suits your unique space and needs. Our solid wall fencing range complies with New Zealand's legal standards within the Swimming Pools Act 1987 so you can rest assured your pool meets the strictest safety standards.

## Pool Fencing Gates

Warner have a range of pool gates to complement your pool fencing and provide safe and secure access. Our glass and aluminium pool gates can be made to match your pool fencing and the latches and hardware have been tested to ensure durability, quality and safety.

*"Thanks for your prompt and efficient service." – Richard Ede*

*"The fence looks great – I'm very pleased with the final result! Thank you!" – Ellie*

*"Many thanks for the great job that Warner did on our pool fence. We are very pleased with the outcome." – Les Boulton*

## Warner App

The innovative Warner app allows you to visualise what your pool fencing will look like and help you in your selection process. Your local Warner franchisee will visit you at your home and use the app to give you a photographic representation of your pool fencing in the style and colour of your choice from our extensive range. The Warner app gives you peace of mind knowing you've chosen the right pool fencing for your unique space. Contact your local franchisee today to take advantage of this fantastic tool.

Check out the video on our website to see the app in action.
